

Text Scripts (Copy/Paste)

Short messages that qualify buyers and reduce drama.

1) First reply

Thanks for reaching out. Yes, the puppy is available. Before we schedule, a few quick questions: (1) City you're in? (2) Any pets at home? (3) Are you looking for a calm or high-energy pup?

2) Proof + next step

I can send the vaccine record + a short video. If that looks good, we can set a pickup time window.

3) Price anchor (no arguing)

Price is \$_____. That includes ____ (shots/vet check/etc.). If you're looking for lower cost, I totally understand—I just want a good fit for this pup.

4) Deposit (optional)

To hold the puppy, deposit is \$____ and the remainder is due at pickup. If anything changes on my side, you get a full refund.

5) Safety / scam filter

I don't ship. Pickup is in/near _____. Cash or ____ at pickup only. I'm happy to do a quick call first if helpful.

Tip: Don't over-explain. Short + consistent + attach proof (vet record/video).
